

How Does Education Pay Off for Missouri?

In Missouri:

Working-age residents with college degrees are 50 percent more likely to participate in the workforce than those with less than a high school diploma.

And their earnings over a lifetime are twice as much – a substantial personal benefit as well as a benefit to the state with respect to more taxable resources, fewer health problems, lower rates of crime, and greater levels of civic engagement.

How Does Missouri Measure Up?

Missouri's Young Adults Compared to the U.S. and Best Performing Countries (Age 25 to 34)

Note: The most educated countries in 2005 include Korea, Japan and Canada.

In Missouri:

A higher percentage of young adults have completed high school than the U.S. average, but lower than the top states and the most educated countries.

About the same percentage of young adults have earned college degrees as the U.S. average, but lower than the top states and the most educated countries.

The Challenge: Missouri's Working-Age Adults (18 to 64) with No College Degree

... **2,528,064** have not completed college (associate's degrees or higher) — **69.4** percent of all working-age adults in Missouri. Of these:

463,101 have not completed high school (or equivalent)

1,189,877 have completed just a high school diploma but have not entered college

875,086 have completed some college but no degree

30,986 speak little or no English

632,005 are living in families whose combined incomes are less than a living wage (twice the level of poverty)

How Well Does Missouri Serve Adult Learners?

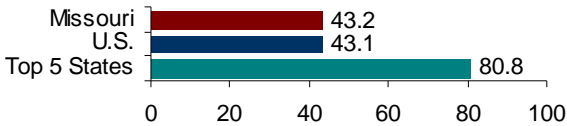

Addressing Basic Skills in Missouri:

State-administered adult education programs serve adults without a high school diploma at a lower rate than the U.S. average, and at a much lower rate than the top performing states.

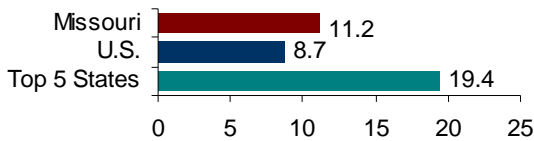

ESL programs serve the adult population lacking English proficiency at a higher rate than the U.S. average, but at a lower rate than the top performing states.

GEDs Awarded per 1,000 Adults:

18 to 24 Years Old with No High School Diploma

25 to 44 Years Old with No High School Diploma

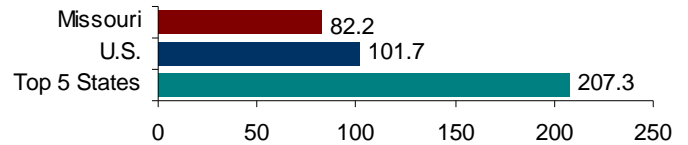

Pursuing Higher Level Skills in Missouri:

Postsecondary institutions serve young adults (25 to 39 year olds who only have a high school diploma) at a lower rate than the U.S. average.

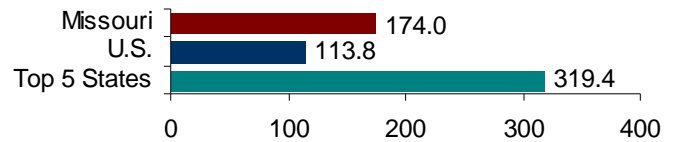

Institutions serve older adults (40 to 64 year olds with only a high school diploma) at a lower rate than the U.S. average.

Adults Served per 1,000 Adults Age 18-64:

Enrolled in State-Administered Adult Education Programs with Less than a High School Diploma

Enrolled in English as a Second Language Programs with Little or No English Proficiency

Helping High School Dropouts in Missouri:

Adult education providers award GEDs to young adults without a high school diploma at about the same rate as the U.S. average, but at a lower rate than the top performing states.

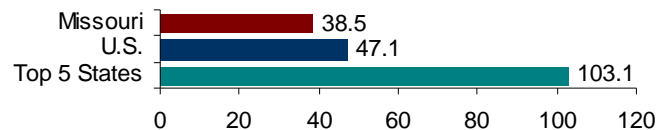

Compared with the younger age group, GEDs are awarded to older adults without a high school diploma at a much lower rate. State performance is higher than the U.S. average for this age group, but not as high as that of the top states.

College Participation per 1,000 Adults:

Age 25-39 with Only a High School Diploma

Age 40-64 with Only a High School Diploma
