

How Does Education Pay Off for New Mexico?

In New Mexico:

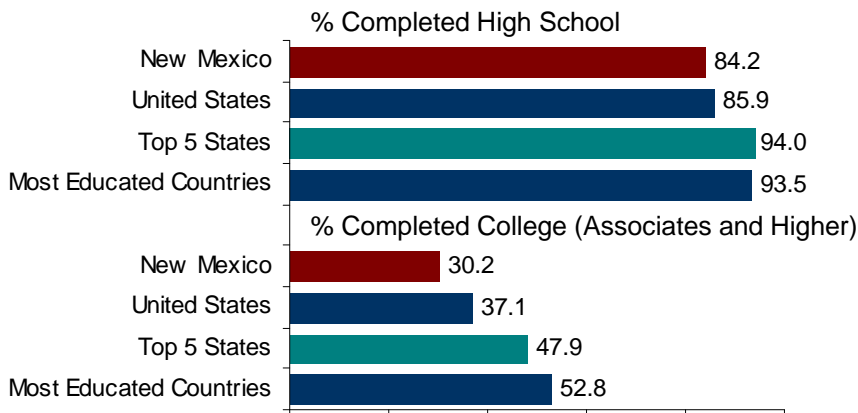

Working-age residents with college degrees are 38 percent more likely to participate in the workforce than those with less than a high school diploma.

And their earnings over a lifetime are twice as much – a substantial personal benefit as well as a benefit to the state with respect to more taxable resources, fewer health problems, lower rates of crime, and greater levels of civic engagement.

How Does New Mexico Measure Up?

New Mexico's Young Adults Compared to the U.S. and Best Performing Countries (Age 25 to 34)

Note: The most educated countries in 2005 include Korea, Japan and Canada.

In New Mexico:
